## **ORKNEY ISLANDS COUNCIL**

## 2009-10 Statistics Tables – Explanatory Notes and Commentary

## Tables:

Attached are summary details of the complaints that the SPSO received and determined about your Council in 2009-10. Table 1 details the number of complaints (by our subject categories) <u>received</u> for your Council for 2008-09 and 2009-10, alongside the total of local authority complaints for these years. In previous years we have used this table to show the total of all contacts (enquiry calls and complaints) that we received about your council. This year we have not included enquiry calls, as feedback has shown that it is more meaningful for you if we concentrate on the actual complaints received. We recorded three complaints about the Council, compared to 13 in the previous year.

Table 2 shows the outcomes of complaints <u>determined</u> about your Council by the SPSO in 2009-10. Received and determined numbers do not normally tally exactly, as figures tend to include cases carried forward from the previous year.

**Graph of prematurity rates:** The anonymised graph shows, for each Council, the percentage of complaints that we received and determined as premature, against the national average in 2009-10 (55%). This represents a decrease on the 2008-9 average of 60%, which is to be welcomed. Figures have been rounded up or down to the nearest whole percentage.

We consider a complaint to be premature when it reaches us before the complainant has been through the full complaints process of your organisation. The graph does not reflect the <u>number</u> of premature complaints that we received about your Council, but shows how your Council, proportionately, compares against the average for Scottish local authorities. Your Council is number 26 on the graph, below the average. You will see from Table 2 that the actual number of premature complaints for your Council was 2 out of a total of 4 complaints determined (50% of the total for your Council). The previous year's figure was 10 out of 12 (83% of the total for your Council). The proportion of premature complaints has therefore reduced, against an reduced number of complaints determined. As, however, the figures on which this is based are very small, proportions may be less meaningful than they are when based on larger numbers.

NB We do not adjust our figures to mitigate the impact of housing stock transfer. It is evident, however, that there is a tendency for authorities that retain housing stock to receive more complaints and to fall higher within the prematurity graph than those that have undertaken stock transfer. This is to be expected, given that housing complaints are usually the largest category of complaint and that there is a disproportionately high incidence of prematurity in housing complaints.

## **Reported Complaints and Recommendations**

We did not investigate and report on any complaints about your Council in 2009-10 We discontinued one complaint about your Council at the investigation stage; it was not reported on.

.....

We hope that you find this summary information useful. If you have any enquiries about the statistics provided, please contact Annie White, SPSO Casework Knowledge Manager, on 0131 240 8843 or by emailing awhite@spso.org.uk. Statistical reports are available on the SPSO website at: http://www.spso.org.uk/statistics/index.php.
