

SPSO decision report

Case: 201100532, Scottish Prison Service
Sector: Scottish Government and devolved administration
Subject: work (in prison)
Outcome: not upheld, no recommendations

Summary

Mr C complained that his previous prison had required him to attend work in prison although there was nothing for him to do. We did not uphold the complaint because prison rules require prisoners to attend work except in cases such as illness or where the prison do not have work available.
