

SPSO decision report

Case: 201201317, The Moray Council
Sector: local government
Subject: handling of application (complaints by opponents)
Outcome: no decision reached

Summary

Mr C complained that when planning permission was sought for a development beside his property, the council did not properly take into account his representations against the application.

We did not, however, investigate the complaint, as we were unable to agree with Mr C the wording of the complaint he wanted us to pursue or the outcome he was seeking.
