

SPSO decision report

Case: 201203352, University of Edinburgh
Sector: further and higher education
Subject: teaching and supervision
Outcome: not upheld, no recommendations

Summary

Mr C complained that the university did not provide adequate supervision for his research and then did not deal adequately with his complaints about this. Our investigation found that the university had met the requirements of their guidelines for research supervision, and that Mr C's complaint of poor supervision was handled under their university's complaints handling procedure and investigated thoroughly. Although Mr C disagreed with the outcome of the investigation there was no evidence of maladministration and we did not uphold Mr C's complaints.
